EXPERIENCE

ARAGON.AI

Software Engineer

San Francisco, CA, US (Remote)

Jun 2024 - Jul 2025

- Led the development of React Native application for Aragon.ai, delivering a comprehensive mobile platform with AI-driven headshot generation, advanced image editing tools, and user-friendly interface design.
- Optimized core web vitals and page performance metrics by 50%, improving user experience and SEO rankings through strategic implementation of performance optimization techniques.
- Spearheaded a comprehensive data-driven redesign of five key landing pages, incorporating A/B testing; achieved a 20% increase in conversion rates within the first quarter, directly boosting user acquisition.
- Revamped the user onboarding process by streamlining the back-end infrastructure, resulting in reducing average page load times by 60% and improving user satisfaction scores by 35%.
- Developed and launched 10+ photo generation packs, expanding product offerings and enhancing user customization options.
- Built comprehensive analytics dashboard for subscription and product KPIs, enabling real-time monitoring and data-driven decision making for business metrics.

DAILY.CO

Solutions Engineer

Junior Solutions Engineer

San Francisco, CA, US (Remote)

Jan 2022 - May 2024

Nov 2021 - Dec 2022

- Developed and maintained Daily Studio, a multiplayer OBS-in-the-browser supporting up to 100k viewers with 200ms interaction latency, streaming to Facebook, YouTube, X, and all other platforms.
- Designed and implemented an internal meetings tool using Daily's APIs offering features such as AI-based meeting summaries, sentiment analysis, and talk-time metrics.
- Delivered expert-level technical support and led Proof-of-Concept (PoC) demonstrations to showcase Daily's API capabilities, contributing to customer acquisition and engagement.
- Collaborated on building a test bench application to compare Daily's performance with competitors, helping data-driven decision-making.

GRAPHQL FOUNDATION

LFX Mentorship - Student Developer

Remote

Jul 2020 - Oct 2020

- Collaborated on expanding the capabilities of GraphQL by introducing a plugin system. This enhancement allowed for greater customization, extensibility, and GraphQL enhancement.
- Collaborated on implementing a redesigned layout by building custom React components to enhance the functionality of the user interface.
